"OH ALADDIN" TO HAVE PREMIER IN NORWICH

The original musical comedy of Connecticut will have its premier in Norwich under the auspices of the Norwich College club in Slater hall on a Friday evening late April.

The "Thousand Nights" with their gorgeous pageantry, their love of music and dance, their brilliant costumes and weird settings have been running in "Oh Aladdin" and have added to their worth in the transportation.

Miss Roberta Newton of Middletown and Miss Rachel Smith of Bayonne, N. J., are the co-authors of the comedy. Miss Newton is contributing the musical score and the interpolated dances to the book and lyrics furnished by Miss Rachel Smith.

The story of "Oh Aladdin" is unique, humorous and clever, while the music is catchy and original. The leading man, Aladdin, will be played by a student of the Naval Academy, and Miss Antonette Taylor of New London, as Peggy Arden, will be the leading lady. There are several interesting choruses, such as the bobbed hair chorus, the wedding bells, gem, heart, artists, slaves, prohibition and candle chorus.

The cast for "Oh Aladdin" principally consists of about twenty-five students, representing the historic, musical and social talent at the college. An attempt was made by the committee in charge of the production to confine the cast to underclassmen, but it was found impossible and this has been done quite successfully.

Among students of local interest in the new production are Miss Helen Perry, of Norwich, N. Y., president of the Student Government Association, who is known to Norwich people as "Eddy the Sailor" in "Haiti People"; Miss Agnes Leaky, Miss Helen Teas and Miss Dorothy Gregson of Norwich.

JUDGE KELLOGG READY TO CHARGE JURY

Judge John P. Kellogg will charge the jury at 10 o'clock this (Thursday) morning in the \$20,000 slander suit of John F. Craney against John Donnelly in this city, which has been on trial for the last ten days in the superior court in New London.

Attorney Roderick M. Douglas made the closing argument for the plaintiff, charging the jury with finding it to be a dramatic case, and offered to give up the last half hour of his time to the other side if they could prove one spot against the plaintiff. Mr. Craney, or Mr. Willard Church, except Mr. Douglas had come from the allegations made against these two people by Mr. Donnelly.

The argument by Mr. Douglas was the only business of the court Wednesday as Judge Kellogg adjourned court when this had been concluded so that Sheriff Sidney A. Brown and attorneys could attend the funeral of Deputy Sheriff Herbert E. Draper in this city.

## GASOLINE PRICE HAS CLIMBED TO NEW NOTCH

Gasoline is going up. "Yes," say the service station owners, "everything is going up and gasoline is no exception. It is thirty cents a gallon now and nobody knows what it will be three months from now at the height of the 'fourteen season.' A year ago it was slightly above twenty cents a gallon depending on the station where it was purchased and by autumn had reached twenty-six cents. A month ago it was twenty-seven cents and it can be bought at some stations now for twenty-eight cents.

"The reason," replies the man who pumps it into the hungry tanks, "well it's the same as with every other thing else. The price of crude oil is considerably higher and there is a great demand for oil just at present all over the world. It is being put to so many new uses especially since the coal shortage that in spite of the increased production that has come with the development of new wells the price keeps mounting higher and higher and they are notified of a higher price at frequent intervals. It is more expensive than ever held at the dealers and the car that can get the most miles per gallon will be correspondingly popular. As with other commodities the dealers find that purchasers do not protest very much against the new rates. They seem to expect to pay more for everything and no more than a sign of resignation or feeling expressed by a regret as they think of pre-war prices accompanies the payment of the bill.

Service stations are doing plenty of business although they like everyone else have suffered from the effects of the storm which has kept many motor vehicles off the streets that might otherwise have been in use throughout the winter. Names are being taken toward more business than ever this spring, though, and they note with satisfaction the increase in the number of automobiles not only in Connecticut, but all through the country for a large part of their summer business comes from the tourist.

REPUBLICANS WILL ELECT STATE CONVENTION DELEGATES

Four delegates to the republican convention and congressional district convention are to be elected by the republican caucus to be held at the town hall this (Thursday) evening.

It is anticipated that the delegates to be elected will be H. M. Lerou, Charles Wells, Joseph H. Henderson and Dr. George Thompson, although it has been hinted that there might be an opposition ticket in the field. From all that could be learned, it appeared that the caucus would be closed till the meeting whether the opposition ticket would be a reality or only a myth.

The state convention is to be held in New Haven on March 23 and 24 for the election of delegates to the republican national convention and the appointment of a state central committee from this district. It is the latter office to which the chief local interest centers, it is understood.

## GRAY HAIR BECOMES DARK AND BEAUTIFUL

Look years younger! Try Grandma's recipe of Sage and Sulphur and nobody will know.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You simply use a spoon or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and in another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.

Liberty Woollen Mills, Yantic, employees and R. Smith, Norwich, employee, bruised right elbow, at the rate of \$14.50.
